What's Important Now?

Remember:  
Complacency Kills!

*Below 100* is an initiative to reduce police line-of-duty deaths to fewer than one hundred per year. The initiative is led by a team of core trainers, with support from outside sponsors.

By concentrating on the areas of loss that are most susceptible to change (e.g. use of safety equipment and enhanced situational awareness), *Below 100* can serve as an instrument of cultural transformation and improved operational practices. *Below 100* recognizes that awareness and training are key and targeted audience must be the change agents – the trainers and decision makers in organizations.

*Together, we can get Below 100*
