RE: HomeSafe Georgia Program

The HomeSafe Georgia program is designed to assist Georgians who are unemployed or underemployed, are no more than six months behind on their mortgage and /or having difficulty making their monthly mortgage payment. The attached flyer provides basic information about the program, phone number and email address for customer service, and the website that one is able to learn more about the program as well as complete the on-line application.

Please pass this information on to others that may benefit from the HomeSafe Georgia program or to those that can inform others about the program. If there is an organization that would like for Georgia Department of Community Affairs to either do a presentation about the HomeSafe Georgia program or participate in an event where the HomeSafe Georgia information would be applicable, please contact me at 404-502-6176 or cynthia.harrison@dca.ga.gov.

Thank you for your assistance in informing Georgians about the HomeSafe Georgia program.
