

## POLICY COMMITTEE ISSUES SURVEY

As we are about to begin the new policy year, we would like to get a better idea of what issues your county is facing that need state assistance or a change to state law. Our policy committees will begin meeting during the month of June to discuss policy issues and plan for the 2011 Session of the General Assembly. To help us plan for our committee meetings, we have prepared questions that we would like for you to respond to and return to us by mail, fax or email.

Please specify the most important issues facing your county that need further discussion or legislative action and need to be addressed by our state government. Please be as specific as possible, including any attached documentation if needed.

1.

2.

3.

Please suggest the name of someone, whether a county official or otherwise, that would be a good resource person for the subjects you have listed above:
