

Safety Coordinator III...

TYING IT ALL TOGETHER!!!

This program is the final part of a three-part series dealing with the duties of the designated safety coordinator position in your organization. Continuing our "focus" on activities and tactics to help prevent accidents on the job and thus lessen the exposure to all forms of accidental loss, this program will be geared towards:

- How to "sell" your safety program to management.
- Provide an in-depth look at how we can prevent and better control losses in the vehicle arena.
- Focus on a major critical area...back injury prevention and control.
- A close look at several deadly hazards including trenching and confined spaces.
- An open session of questions and problems where your concerns can be brought out in the open and dealt with in a frank and open manner. (Bring your concerns and we'll trouble shoot them!)

Check-in and continental breakfast begin at 8:00 a.m.
Seminar begins at 8:30 a.m. and will adjourn at approximately 12:30 p.m.
