Local Option Sales Tax (LOST)

Description: Subject to countywide voter approval, a sales and use tax of 1% may be imposed to pay for maintenance and operational expenses that would normally have to be paid with property tax revenues. This tax is shared with municipalities based upon a negotiated certificate that must be updated at least every 10 years. A rollback on property taxes must be given annually in an amount equal to the sales tax generated in the prior year. The rollback must be shown on the property tax bills.

Special Purpose Local Option Sales Tax (SPLOST)

Description: SPLOST is an optional one percent special district sales and use tax used to fund capital outlay projects proposed by the county government and participating qualified municipal governments. County and municipal governments may not use SPLOST proceeds for operating expenses or maintenance of a SPLOST project or any other county or municipal facility or service.

The tax is imposed when the county board of commissioners or sole commissioner calls a local referendum in conformance with O.C.G.A. § 48-8-111 and the referendum is subsequently passed by the voters within that special district, i.e., county. The tax is collected on items subject to the state sales and use tax within the county, including the sale of motor fuels as defined in O.C.G.A. § 48-9-2. The SPLOST is also imposed on the sale of food and beverages, which are not subject to the state sales tax [O.C.G.A. § 48-8-3 (57)(D)(i)].

Several factors determine the length of time that a SPLOST may be imposed. In general, the tax may be levied for five years. If the county and qualified municipalities enter into an intergovernmental agreement, the tax may be imposed for six years. If no intergovernmental agreement exists and a Level One project is included, then the tax must run: (1) for five years, if the estimated cost of all Level One projects is less than 24 months of estimated revenues; or, (2) for six years, if the estimated cost of all Level One projects equals more than 24 months of estimated revenues. Once the tax terminates, it can be immediately continued without a gap in collections if a referendum is timely held in which the voters approve the new SPLOST.

Homestead Option Sales Tax (HOST)

Description: Subject to countywide voter approval, a sales and use tax of one percent may be imposed to fund capital projects and provide tax relief on residential homesteaded property. Eighty percent of the revenue must be applied to rolling back county property taxes on homesteaded property and up to twenty percent of the revenue may be used for funding capital projects. A county must choose between imposing a LOST or HOST since the law does not allow for these two local sales taxes to be imposed simultaneously. HOST revenue may be shared with municipalities within the county through an intergovernmental agreement.

Local Option Income Tax

Description: A local income tax may be imposed at the rate of one percent of taxable net income which is reasonably attributable to property owned and business done within the county. To enact the tax a referendum is required. More than 50 percent of the qualified electorate must vote in the election and more than one-half of the votes must be cast in favor of the tax. If imposed the tax would be collected and distributed to the imposing local government by the State Department of Revenue. This tax has not been utilized by any county.

60 Executive Park South, NE
Atlanta, Georgia 30329

Total Funding Level: Varies.

Maximum per Applicant: Varies.

Criteria for Eligibility: Eligible applicants for REAP designation are developers of projects as those terms are defined in sections 110-20-1-.02(5) and (9) of the REAP Rules. In order to receive REAP certification, a project, in combination with any adjacent facility included by a reciprocal use agreement, must (a) be not less than 250 acres in size, (b) where required, have zoning which is appropriate to the planned uses and plans which are consistent with other land use regulations, and (c) provide for at least three of the five following criteria: (I) one or more regulation 18-hole golf courses, with a clubhouse providing food service, (II) a full-service restaurant with minimum seating for 75 or more persons, (III) at least 100 residential units, (IV) at least 200 rooms for overnight stays, or (V) conference facilities with capacity for 250 participants. A project that does not include an adjacent facility subject to a reciprocal use agreement need only meet two of the five criteria listed above in (c).

Criteria for Selection: All applications received from eligible applicants will be reviewed to determine whether a project meets the REAP criteria and complies with the REAP Rules.

How to Apply: All applications must be submitted in a format prescribed by the Department of Community Affairs and signed by the Chief Elected Official(s) of the applicant community(s), and received by the applicable deadlines. Semi-annual competitions are held in the spring and fall of each year.

Type of Assistance: The purpose of Regional Economic Assistance Projects (REAP) is to provide a mechanism for local and state governments and the private sector to cooperate on large-scale tourism related projects with multiple uses that will create jobs and enhance the local tax base. Regional Economic Assistance Projects will assist in producing growth and development, particularly in rural areas, resulting in additional local tax revenue and providing high-caliber employment opportunities in the tourism and hospitality industries. Additional benefits include sound project development, consistent governmental review and approval, responsible project implementation, and project monitoring and reporting. Upon meeting the requirements of the statute and these Rules, including local government endorsement and certification by the Georgia Department of Community Affairs, a developer of a certified REAP project may apply to the Georgia Department of Revenue for a state license for the sale of malt beverages, wine, or distilled spirits by the drink for consumption on the premises only.
